JULES JUSSERAND

EX-ENVOY OF FRANCE DIES

Jules J. Jusserand, Former Ambassador to U. S., Stricken in Paris.

FIRM LOVER OF AMERICA

Sought To Cement Friendship Through 22 Years of Service.

By The Associated Press

PARIS, July 18—Jules J. Jusserand, 77, former French ambassador to the United States, died this morning. For some time he had been suffering from a kidney ailment, but although his health was delicate death was not expected.

Death came peacefully as he lay ill in his Paris home. It was learned he had been under the constant care of a physician for the last eight days because of a constitution weakened by a series of kidney operations some years ago.

Madame Jusserand was with him when he died.

"Up to the very last," she said, "my husband thought and talked of the America which he loved so dearly.

"He wanted me to tell your people this: That he was deeply worried in recent times by the feeling in the United States against France.

Sought Friendship

"Despite his ill-health he had tried by radio speeches and otherwise to explain the two peoples to each other."

For 22 years Jusserand was ambassador to the United States, establishing a record for the longest continuous assignment in the history of the Washington diplomatic corps.

He was quiet and unassuming, but those close to him knew that under his administration the French embassy achieved his ambition to unite his own country and the United States in bonds of firm friendship.

KENTON, July 18—Marion Kissling, 86, farmer of west of here, died five minutes after he suffered a skull fracture shortly before midnight Saturday when struck by a machine driven by Adrian Gibson of near Kenton while crossing a street at an alley intersection. Police declared the mishap an accident.

Witnesses said that Kissling walked directly in front of the Gibson car. Members of the Gibson family attended the man until the arrival of an ambulance. He died enroute to the hospital.

Funeral services were set for today at 4 p. m. at the Dingess & Porter undertaking parlors with burial in Grove cemetery.

Mr. Kissling was born in Sidney, but had lived in Hardin county many years. Of late years he made his home with a nephew, Shird Kissling of west of here. A brother, Martin Kissling of McGuffey survives.

Cars Collide at Intersection

Three persons were injured, one seriously, when automobiles collided at the intersection of state routes 95 and 98 five miles east of here early last night, it was reported to Sheriff C. C. Fye.

Miss Esther Pilcher of Columbus suffered serious injuries about her hips, was reported at the City hospital. An X-ray examination was to be made to determine the extent of her injuries.

Walter Matz of Fireside, near Clyde, O., with whom Miss Pilcher was riding, and Hermit Campbell of Kentucky avenue, driver of the other car, were cut by broken glass and were bruised. Harry Campbell, father of Hermit Campbell and a passenger in the automobile with him, was not injured.

Campbell's car was headed west. Matz's north when they collided. Campbell's Dodge ended a plunge against a telephone pole after the collision. Matz's Ford coupe was overturned.

All four were taken to City hospital, but only Miss Pilcher was admitted. Matz and Hermit Campbell were treated for minor injuries, and authorities held Harry Campbell pending an investigation of the accident.

Berries Spilled in Auto Crash

The contents of 10 crates of raspberries were scattered over the street and a Ford roadster driven by Robert Egbert of Green Springs, O., was badly damaged when the car was struck by a machine driven by Harry McColly of 741 North Main street at South Prospect and Columbia street this morning.

Egbert, with a trailer containing 10 crates of berries attached to his car, was driving west on Columbia street and according to his story to the police, stopped before entering the intersection. He said he saw no cars approaching from either direction. He reached the center of the street when the car driven by McColly came from the south, crashing into his machine, he said.

The Ford was knocked several feet by the impact, witnesses said.

Egbert escaped injury. The McColly car was able to continue under its own power while the Ford was taken to the Ford garage on East Center street.

300 PERSONS MADE ILL

Marion Man Among Those Stricken After Luncheon at Meeting.

By The Associated Press

MASSILLON, O., July 18—Food served at a luncheon attended by delegates to the Communist party's state ratification convention yesterday which caused the illness of approximately 300, was sent to the state health department today for analysis.

Of the 100 persons sent to the hospital suffering from what was believed to have been ptomaine poisoning, all but six were discharged during the night, and the remainder are to be discharged during the day.

Hospital facilities were taxed beyond capacity following the luncheon. Most of the victims were cared for at emergency stations but about 100 were rushed to the city hospital. They were released during the night.

Meeting in Confusion

The luncheon consisted of potato salad, cold meats and coffee. Shortly afterward the victims, more than 20 of them women, were stricken.

Confusion fell upon the convention, then nearing adjournment, as the delegates, suddenly made ill and fearing for their lives, began appealing for help.

All available doctors, nurses and ambulances were summoned. Private cars and police wagons were pressed into service to haul the suffering to hastily set-up emergency stations. Boy Scouts were called in from a nearby summer camp, bringing cots and blankets.

The patients were placed two in a bed at the hospital until all beds were occupied. Many of the victims laid in the halls. Some were left on the hospital lawn, while scores were taken to a Y. M. C. A. gymnasium and to the Knights of Malta hall.

To Determine Cause

Doctors found it possible to discharge between 100 and 150 patients as out of danger, shortly after treatments were given them. The others were released during the night. Laboratory tests were ordered today to decide upon the tentative diagnosis of ptomaine poisoning.

The convention opened Saturday night, to ratify the party's platform and to indorse candidates for the fall campaign. It was estimated that 700, from all parts of Ohio, attended.

GERMANY ACTS TO STOP HUGE TOLL OF RIOTS

Fifteen More Added to List Victims in Week-End Clashes.

OUTDOOR MEETS BANNED

Declaring of Martial Law Possible If Bloody Outbreaks Continue.

By The Associated Press

BERLIN, July 18—The German government issued a decree today banning all outdoor demonstrations following a week-end of political rioting in which 15 persons were killed and scores injured.

The cabinet was faced with a number of other possibilities, such as the declaring a state emergency as demanded by various political groups, forbidding the wearing of uniforms as the Centrists and trade unions want, or outlawing the Communists as the Nazis demanded, but it considered a general ban on all outdoor processions and demonstrations the most effective method of avoiding further bloody week-ends.

Permission to wear uniforms continued, however. The cabinet reinstated them under pressure from Adolf Hitler, Nazi leader, and could hardly afford politically to rescind its own orders.

More Trouble Seen

In some quarters it was maintained that as long as the uniforms are permitted the possibility of further clashes will remain but since large crowds will no longer be permitted to march or meet outdoors the government considered that an effective brake was put on the situation by today's decree.

Thousands took part in the bloody battles of the last week-end.

Late reports reaching Berlin today said there were clashes also between opposing political groups at Leipsic, in eastern Frisia, in Hanover, at Luckenwalde, Chemnitz, Barmen, Gladbach, Remscheid, Bochum, Detmold Wismar, Freising and Itzehoe.

The new decree is a stern document. In a semi-official statement issued shortly after it was published the government indicated that "it reserves all further measures to itself and will not hesitate in case of need to proceed severely against groups working with explosives and firearms even to the extent of standing up against a wall and shooting those caught with firearms or explosives."

This is possible without resorting to martial law by inducing the civil courts to proceed with the utmost dispatch in imposing the death penalty upon the guilty.

As for the National Socialist threat to arm the storm troops if the government did not proceed against disorderly elements of the left, it was stated the government in no case will tolerate the arming of any political organization.

AIMEE M'PHERSON IN CRITICAL CONDITION

Slightest Shock May Be Fatal, Doctor of Noted Evangelist Warns.

By The Associated Press

LAKE ELSINORE, Calif., July 18—Aimee Semple McPherson Hutton, evangelist was reported today to be in such critical condition that "the slightest shock probably will result in her death.

"Her condition is extremely critical," Dr. Edward H. Williams, the physician, said. "She absolutely must not be disturbed if she is to recover. I have instructed her attendants to see that no one, even her husband, must attempt to see her."

Mrs. Hutton is suffering, her doctor said, from a basal fracture of the skull. She fainted recently when informed her husband, David Hutton, had been found guilty by a jury in a breach of promise suit brought by Myrtle St. Pierre, a nurse, and fell to the floor, striking her head.

Mrs. Hutton had been recovering from a nervous breakdown and a tropical ailment when she injured her head.

COUNTY FACES $100,000 SUIT

Family of N. Y. Man Who Died After Police "Probe" Announces Plans.

By The Associated Press

MINEOLA, N. Y., July 18—Nassau county, an attorney announced today, is to be sued for $100,000 for the death of Hyman Stark, who died after lengthy "interrogation" during which he received almost countless ... and had his Adam's apple smashed.

Samuel Leibowitz, attorney, said during progress of a John Doe inquiry into the death, that he had been retained by Stark's family to sue for the amount of money the former convict and narcotic addict "might have been expected to earn during an honest lifetime."

Leibowitz said the damage action would be brought in New York City and that he had already taken the first steps. He also counseled ... one of the three men arrested with Stark and asserted that their defense on charges of having assaulted the aged mother of a county detective during a robbery would be "extremely simple."

As he prepared to appear before Supreme Court Justice Steinbrink in a John Doe inquiry, District Attorney Elvin N. Edwards declared there would be no "whitewashing" of the police.

Stark died of a fractured larynx Friday night, eight hours after he had been arrested as one of four men accused of beating and robbing Mrs. Valeria Hizenski, mother of Joseph Hizenski, Nassau county detective.

Edwards has announced that "apparently an over enthusiastic police officer broke Stark's adam's apple." The Herald-Tribune said today his life might have been saved had police informed hospital authorities.

Edwards did not name the man or men who struck the prisoner, although Detective Hizenski and Deputy Chief of Police Frank J. Tappen of Oyster Bay, who was in charge of the department temporarily, have been suspended.

The district attorney disclosed that Stark's three companions also bore bruises which he indicated had been inflicted by police.

After the funeral of Stark, underfoot East side youth whose brief career of crime ended in sudden death, friends and others who saw the body declared he must have received a brutal third degree. Both eyes were blackened green, ... and his face was covered with bruises, they said.

$2,500 LOSS IN UPTOWN BLAZE

Turoff Brothers' Restaurant Damaged by Sunday Night Fire.

STARTS IN VENTILATOR

Principal Damage Done to Stock Supply; Origin of Flames Unknown.

Fire starting in a ventilator shaft in the kitchen did damage estimated between $2,000 and $2,500 at the Turoff Bros. restaurant on South Main street shortly after 11 p. m. yesterday. Most of the damage was to supplies in a stock room on the second floor and to a room above the kitchen. The restaurant, proper, although not damaged except by smoke, was closed today but according to the owners, will be reopened Wednesday morning. The cause of the fire is unknown.

James G. Turoff, one of the members of the firm, estimates the loss to supplies between $1,200 and $1,500. Damage to the building, owned by J. Malcolm Shreiltz had not been estimated this morning.

The blaze started in a ventilator shaft and was drawn up by a suction fan to the second floor, the intense heat caused from grease in the shaft setting fire to the studding. The fire spread rapidly. Although restaurant employes called the fire department at once, when firemen from the central and No. 2 stations arrived, the flames had burned through a small room on the second floor which contained the shaft and the fan, into a larger room used for storage.

A large amount of paper stored in this room fed the flames. Firemen prevented the blaze from spreading to an adjoining stock room but the heat was so intense the contents of canned goods stored in the room were cooked.

Because the blaze was drawn upward by the suction fan, little damage resulted to the first floor. Some smoke got into several adjoining stores and offices but not enough to cause damage. The office of Attorney Sylvester Larkin and of John W. Klinefelter on the second floor were filled with smoke. The damage was slight.

Miss Daisy Stout, night cook, who was in the kitchen when the fire started, sustained a minor cut on the head when in stooping to shut off the gas in one of the ranges her head came in contact with the stove.

543 MILLIONS WILL BE SPENT ON 10-YEAR JOB

Lake Cities To Be Given Ocean Outlet Over St. Lawrence River.

LEGISLATURES MUST ACT

Final Ratification Necessary Before Project Is Started by Countries.

By The Associated Press

WASHINGTON, July 18—The United States and Canada this morning agreed by treaty to construction of the $543,000,000 St. Lawrence seaway.

In a brief ceremony at the state department, Secretary Stimson signed for this country and Minister Herridge for Canada.

Pending 11 years, the gigantic project calls for development of the St. Lawrence for a 180-mile stretch from Montreal to Lake Ontario a ten-year task. It will enable ocean-going vessels to travel to the heart of the continent while at the same time provide up to 2,000,000 horsepower electrical energy, to be divided by the American and Canadian sections bordering on the waterway.

Ratification Necessary

It is now a binding agreement between the two administrations, but yet must be ratified by the legislative bodies of the two countries before going into effect.

A minute or so after 10 a. m., Secretary Stimson penned his name, to be followed at once by Mr. Herridge.

The senate has directed that an investigation of the treaty be conducted between now and the opening of the December session of congress. But Chairman Borah of the foreign relations committee specifically stated that this was not decided upon because any "suspicion" attached to the treaty.

The document calls for two dams. The upper one in the international section, according to a recommendation of the joint board of engineers, a digest of which was released with the treaty, will be at Crysler island with two power houses, one on either side of the international boundary.

There will be a navigation canal and lock on the Canadian side opposite Crysler island.

The lower dam is recommended to be located at Barnhart island with two power houses, one on either side of the international boundary with a canal and two locks on the American side.

Horsepower Estimates

The power to be developed at Crysler island is estimated at 529,960 horsepower. At Barnhart island it is estimated there will be a development of 1,607,000 horsepower.

Disposal of the 1,100,000 horsepower which is expected to be realized on the American side of the international section is reserved for settlement by this country.

In that connection, Mr. Hoover recently informed his rival for the presidency in November—Governor Franklin D. Roosevelt of New York—that federal authorities would confer with those of the interested states to agree on details once the treaty is finally effected.

As to diversion of water from Lake Michigan upon the nine-foot waterway from Chicago to the Mississippi, the President was assured by the war department that the treaty provides sufficiently for maintenance of that waterway.

The treaty question has been hanging fire for 11 years, and officials estimate that once the agreement is in complete effect it will take probably 10 years to construct the waterway.

Ten years is estimated by the engineers as a reasonable time for completing the work.

The joint board of engineers estimates that the entire waterway from the Great Lakes to Montreal will cost a total of $543,429,000.

Of this amount it is estimated the United States will spend $272,452,000 and that Canada will spend $270,976,000.

A considerable portion of these sums has already been expended by both countries.

President Hoover, in a statement,

CONFESSES IN OHIO MURDER

Warren Robbery Captive Admits Part in Slaying of Police Chief.

By The Associated Press

WARREN, O., July 18—A companion of a robber slain in a gun fight in which two policemen were seriously wounded admitted today that he participated in the slaying of Police Chief Scott Vasbinder of Newton Falls July 5, authorities said.

Sheriff John C. Risner and Police Captain George Sallen said the captured man, who gave his name as Tony Retunno 31, of Sharon, Pa., admitted firing a shotgun at Vasbinder. Retunno, however, asserted a man known only to him as "Curley," who fired an automatic, was the actual killer.

Retunno was apprehended yesterday after one of his companions, identified as Owen Hunter of Warren was shot to death in a fight with three policemen who caught them in a $300 robbery. Sergeant John Heinlein, shot in the chest, was reported in a "fair" but still critical condition today. Patrolman Arthur Lindy was wounded in the side.

A third robber escaped.

Heinlein, Lundy and Patrolman John Conway caught the robbers in the office of the Duquesne Oil Co. where they had broken a safe and taken $300.

The robbers began firing at first sight of the policemen. The policemen answered shot for shot.

Heinlein and Lundy fell in exchange. The robbers then turned and fled. Hunter collapsed and died before he could leave the neighborhood. The others escaped.

Several hours later, Retunno was discovered by three policemen talking to a farmer. He fled into nearby woods. With a posse of 100 police and civilians on his trail, he surrendered without struggle. The third robber had disappeared.

Roosevelt to Coolidge were his personal friends. His service began early in the Roosevelt administration.

He was an important figure in the delicate negotiations involving transfer to the United States of the Frenech rights in the Panama canal.

In 1924, when France was negotiating payment of her war debt to America Premier Herriot appointed Emile Daeschner to succeed M. Jusserand.

Retained Loyalty

The veteran was disappointed, but he remained loyal to his government.

When he left he said:

PIRATE TREASURE REPORTED FOUND

CAPT. A. B. WHIDDEN and COL. J. E. LEEKIE

By International News Service

SAN FRANCISCO—"Pieces of eight, pieces of eight," the monotonous cry of old John Silver's loquacious parrot, runs through our head as we hear the report that a fabulous sum in pirate gold has been located in the Cocos Island, one-time stamping ground for the colorful free-booters of the Pacific.

The treasure, the value of which is estimated at $60,000,000, is said to have been found by an expedition, headed by Colonel J. E. Leekie and W. S. Clayton, which left Los Angeles last March aboard the good ship Silver Wave, skippered by Captain A. B. Whidden.

It is more than probable that too many cyphers have been included in the amount of the treasure, if there is any treasure. Oh yes, there's an "if" to it; for while Captain R. D. Adams of Lindsay, Calif., who is a member of the expedition, insists that the gold has been found, other authorities are equally insistent that the report is, to say the least, premature.

Interesting, at Least

However, a treasure hunt is always thrilling, whether the net result is disappointment or the finding of gold, and there are several interesting aspects to the search for the pirate booty in the Cocos.

In the first place, according to Adams' report, the buried booty was located with a gold-divining device called the metalaphone, an apparatus perfected by science for indicating the presence of ores in the earth. Many such devices have been tried on several occasions and it has been found that the best that can be said for them is that they have a fairly good average. The instrument is used in a similar manner to the hazel divining rod used by old prospectors in the search for water and sometimes, oil.

Another interesting aspect of the story is that Captain Adams' message gives the location of the pirate cache as being only 30 yards from the spot where an expedition, headed by Captain Malcolm Campbell, famous auto racer, camped while seeking that same hidden loot. Campbell at the time professed himself confident that he was on the right track and had intended to return for another attempt.

An Old Story

The story of the treasure has been told probably a million or so times wherever seamen gather and such a number of different versions exist that it is impossible to make any accurate guess as to which is the authentic one. However, it is generally conceded that the bold, bad buccaneer who planted his ill-gotten hoard on the lonely island was a Captain Graham, who strayed from the straight and narrow path he was compelled to tread as an officer in the British Navy and took to piracy.

It seems that contrary to what we have been led to believe there was no honor among thieves in the days when "Sixteen men sitting on a dead man's chest" was a popular song. That period had its hijackers, just as we have them today, and an honest pirate never knew the hour or the minute when a rival outfit, sailing under the Jolly Roger, would swoop down on him and strip him of his hard won loot, making him walk the plank linto the bargain.

Graham Was Cautious

It was fear of hijackers that prompted Captain Graham to cache his golden hoard on Cocos. But of all the stories told about the treasure none has even ventured to express an opinion as to why the pirate captain failed to return and retrieve it. It may be that he suffered the fate of other buccaneer chiefs and was slain by a mutinous crew, or he may have been killed in one of his piratical enterprises.

Whatever the gallant captain's end, he left a riddle behind that has drawn no less than 26 treasure-seeking expeditions to the island in the last 25 years.

The island is under Costa Rican jurisdiction and, according to the report from Captain Adams, the successful expedition has worked under protection of that government, which provided a guard to keep intruders away until the treasure, if any, is removed.

GOVERNOR ASKS FOR EVIDENCE OF BRIBE

Unless Proof Is Forthcoming White Will Carry Case to Michigan Executive.

By The Associated Press

COLUMBUS, O., July 18 Governor George White will make no official investigation of charges that $30,000 was used in an Ohio extradition case, unless Michigan authorities present evidence on which such a probe could be based.

The executive, in making this announcement today, indicated that if the evidence is not forthcoming, he will carry the case to the Governor of Michigan and ask that the assistant prosecutor who lodged the charge make an apology.

Governor White said that with Theodore Tangeman, state finance director, he would consider the matter thoroughly, but that he was convinced there was no bribe in the case.

Assistant Michigan Prosecutor Duncan McCrea of Detroit, claimed last week that $30,000 "was used" in the case of James Licavoli, who was held at Toledo for Michigan authorities on a murder charge. The extradition was refused by the governor's executive secretary, S. P. Dunkle, who said he had acted with the knowledge of the governor and Tangeman. Dunkle said there was no mention of a bribe during the proceedings, and that he acted on the weight of the evidence and after Michigan authorities had failed to produce new evidence.

GUNMEN GET $3,900 FROM RESORT SAFE

By The Associated Press

CLEVELAND, O., July 18—Three robbers got $3,935 early today by forcing Charles Tend, owner, to open the safe of the Lotus Gardens, a dine and dance resort.

Using an automobile to force Tend's car to the curb, while a chauffeur was driving him home, the robbers threatened the proprietor with guns, and one of them struck him with a fist when he was slow to open the safe.

Tend was left tied to a chair and gagged. The chauffeur notified police.

Ohioan Slashes Phone Cables To Get Revenge

By The Associated Press

ASHTABULA, O., July 18 Mud spattered on his clothes by a telephone truck, so angered Leo Potti, 22, police today said, that he sought revenge by a series of damaging raids on transcon-damaging raids on transcon-Telephone & Telegraph company.

Potti, injured when he fell from a telephone pole July 5, pleaded not guilty to a charge of damaging telephone cables. From his hospital bed, however, police said, he admitted chopping, shooting and sawing telephone cables a number of times between Painesville and the Pennsylvania state line.

They said he admitted starting the raids after a phone company truck splashed him with mud in Cleveland last February.

He was held in $1,000 bond for the grand jury.

MARION MAN GIVEN REFORMATORY TERM

Sam Birchem Sentenced as Parole Violator in Theft of Auto.

Sam Birchem, 26, of Marion was sentenced to a term of one to 20 years in the Mansfield reformatory for violation of parole by Judge E. E. Everett in the Allen county common pleas court this morning, according to a news dispatch from Lima.

The sentence was imposed for the failure of Birchem to make monthly parole reports to the court, ordered when the court gave Birchem a deferred sentence for automobile stealing. Birchem, the dispatch said, pleaded guilty on April 19 1931, to the automobile theft charge. He disappeared two months later.

Birchem was arrested in a North Main street restaurant by local police last Thursday afternoon on the warrant from Lima charging parole violation.

Birchem was one of two men implicated in a number of crimes by a confession of Cecil Lewis whose arrest here more than a year ago resulted in the solution of nearly 20 crimes. Birchem denied these charges but admitted stealing an automobile in Lima. Forrest Dixon, the other man implicated by Lewis' confession, and Lewis now are serving sentences in the reformatory.

Earl Birchem, brother of Sam, who also was implicated in a list of crimes by Lewis' confession has not been apprehended.

POLICE PROBE "CARD" DEATH

Chicagoan Murdered; Widow Tells Officials Cards Foretold Slaying.

By The Associated Press

CHICAGO, July 18 Police shuffled through a slim deck of clues today in their investigation of the slaying of George Carl, storekeeper, foretold, his widow said, 60 hours in advance by "cards of death" she drew from a neighborhood fortune teller's hands.

They held for questioning Ivan Grilec, 38, a brother-in-law of the dead man, who they said they had learned, sold Mrs. Vera Carl, the widow, a $5,000 insurance policy with double indemnity clause in which she was named beneficiary. Grilec, however, denied having any insurance dealings with Carl.

Had Been Warned

Mrs. Carl told police she and her mother had warned Carl that on Thursday she turned up three cards which predicted his death at the home of Mrs. Susie Ballo. He laughed at their forebodings, she said. Mrs. Ballo corroborated their statements as to the "fatal" deal.

Carl was found shot to death Saturday night in his grocery store by his wife and son. The widow notified police after calling a friend, John Pettek. The rear of the store was in much disorder, the cash register overturned and empty.

Police Lieut. Herbert Burns said while Carl might have been killed by robbers, he was investigating also possibility that the slayer had simulated robbery. No weapon was found.

Son Bares Story

First information of the occult turn of the case came to officers from the victim's nine-year-old son, Dorn. He said that Friday his mother asserted: "Your father will be shot Saturday night. It's in the cards." Mrs. Carl then acknowledged drawing the death cards, and Mrs. Ballo, questioned, repeated that the cards not only foresaw the violent death of Carl, but indicated his widow would "get some money" and would have trouble with the authorities.

The position in which the body was found indicated, officers said, that the slayer had sat talking to Carl.

praised the agreement but reminded that to take effect it "must yet be ratified by the legislative bodies of the two governments."

The President's text follows, in part:

"The signing of the Great Lakes-St. Lawrence waterway treaty marks another step forward in this the greatest internal improvement yet undertaken on the North American continent. The treaty must yet be ratified by the legislative bodies of the two governments and is not effective unless this is done.

Fulfills Promise

"The treaty represents to me the redemption of a promise which I made to the people of the midwest. It provides for the construction of a 27-foot waterway from the sea to all Canadian and American points on the Great Lakes. Such a depth will admit practically 90 per cent of ocean shipping of the world to our lake cities in the states of New York, Ohio, Michigan, Indiana, Illinois, Wisconsin and Minnesota. Its influence in cheapening transportation of overseas goods will stretch widely into the interior from these points. Its completion will have a profoundly favorable effect upon the development of agriculture and industry throughout the midwest. The large by-product of power will benefit the northeast. These benefits are mutual with the great dominion to the north.

"The waterway will probably require 10 years for completion, during which time normal growth of traffic in the nation will far more than compensate for any diversions from American railways and other American port facilities. The economic gains from improved transportation have always benefitted the whole people."

BALTIMORE FIGHTS DISASTROUS BLAZE

By The Associated Press

BALTIMORE, July 18—Three railroad piers smoldered and burst into flames in spots today as firemen continued to try to gain control of one of Baltimores biggest and most spectacular waterfront fires of recent years. Damage was estimated at nearly $1,000,000.

The wooden planking, protected by corrugated iron sheeting, baffled the efforts of the firemen throughout the night and was still afire this morning, but was not regarded as a further menace to adjacent property.

Seven firemen and one volunteer fireman were injured while about 25 other firemen were affectd by smoke.

The three piers, property of the Pennsylvania railroad company were destroyed and a fourth damaged.

DISCOURAGED BONUS VETS ON WAY HOME

Rapidly Giving Up Quest for Cash as Congress Quits.

By The Associated Press

WASHINGTON, July 18—Discouraged because congress has quit, a good many members of the bonus seeking army had decided today the best thing to do was to go home.

A long line formed this morning in front of the veterans' administration building where transportation is available. Officials were forced to set up emergency office space in the corridors to handle the applications.

Meanwhile, two veterans were arrested for attempting to organize a protest meeting outside of police court where four of their comrades were on trail for trying to picket the White House Saturday night.

At the same time Judge Isaac Hitt cleared the court room of veterans who had congregated to hear the trial of Urban Ledoux, known as "Mr. Zero," and the others arrested at the White House. The veterans, members of the so-called left, or radical, wing of the army, came to protest the arrests. There was no disorder at the court.

When the rush at the bureau started, a total of 2,119 railroad tickets had been issued up until 9 o'clock since the transportation bill passed nearly two weeks ago. Conveyance by auto had been furnished for 324.

At the present rate of application the bureau expects to double the figure before night.

NEWTON J. WHITE, 76, IS CLAIMED BY DEATH

Former Marion Resident Dies at Home in Russell's Point Today.

Newton J. White, 76, formerly of Marion, died at his home in Russell's Point at 5:30 a. m. today. He had been in failing health four years. His death was caused by a complication of diseases.

Until he left Marion 21 years ago, Mr. White was a well driller here. He was born in Gettysburg, Pa., Jan 29, 1856, the son of Jamison and Hester White. In 1882 he was married to Princess Brady at Climax, O.

The widow and two daughters, Mrs. Geneva Reiff of Hornell, N. Y., and Mrs. Linnie Sweeney of Russell's Point, survive. Mr. and Mrs. White celebrated their golden wedding anniversary March 24. They had four grand children and two great-grand children.

Services will be held at the home Wednesday at 1:30 p. m. followed by burial in the Marion cemetery.

RITES TUESDAY FOR MRS. ROCKEFELLER

By The Associated Press

CLEVELAND, July 18—Funeral services will be held tomorrow for Mrs. Helen Elizabeth Rockefeller, widow of the late Frank Rockefeller, who once said he "hadn't spoken" to his brother John D. Rockefeller in 12 years.

Mrs. Rockefeller, 84 years old, died yesterday after an illness of five weeks. Her husband died 15 years ago.

Early in their business careers, the Rockefeller brothers were associated, but Frank later withdrew and afterwards, with his wife, lived much of the time in Kansas, acquiring large cattle ranches in Kansas and Texas.

Railroad Men Hear Talk on National Pension Bill

Says Legislation Would Provide Work for 112,000 Would Provide Income for Equal Number To Be Retired; Measure Now Before Congress.

...to put 112,00 men to ...ring an equal number ...d and in addition ade... ...s for the 112,000 ... would be taken, was ... the Railroad Em... ...nal Pension associa... ...k by W. W. Royster, of ...rional chairman of the ... to local railroad men ... temple yesterday af...

...which is now pending in congress, the speaker told his audience, will if passed by congress in December, provide for the compulsory retirement on pension of 112,000 railroad men whose places would be taken by men now unemployed.

Would Make Assessment

The bill will, he said, provide for an assessment of approximately 2½ per cent on the gross income of the railroads of the country and an equal assessment on the wages of each railroad man employed as a means of raising money with which to pay pensions to those railroad men who could retire. The assessment, he said, would in six months time produce a fund of $100,000,000 from which the pensions would be paid.

In addition to providing an adequate pension for those who would be compelled to retire, it would also provide the same kind of a pension for those railroad men who already retired, the speaker pointed out. These men, he said, would be given the same consideration as the men who would retire in the future. A man must have reached the age of 60 years and served as a railroad man for 30 years before he would be eligible to a pension under the bill.

The speaker compared the bill with one introduced by the 21 railroad brotherhoods and which is also pending before congress. The brotherhood's bill, he told his audience, was introduced merely as a means of blocking the passage of the pension bill.

The brotherhood bill he said was sponsored by insurance companies and was drawn with a view to aiding the railroad companies rather than the men. He pointed out that the brotherhood bill, which is known as the Railroad Employes Retirement Insurance bill, would provide for only a portion of the pension provided under the bill being fostered by the National Pension association. The bill would do nothing toward solving the present unemployment situation while the national pension bill would be the means of placing 112,000 in employment within six months after its passage, he said.

Compares Bills

He cited as an example of what could be expected by railroad men under the two bills the case of a man who had made $200 a month during the entire 30 years of his service. This man, he said, would receive a pension of approximately $150 a month under the national pension bill while under the bill being sponsored by the brotherhoods, he would receive a pension of approximately $80 a month. He also pointed out that of the $150, the railroad company would pay approximately $101.13 while the $48.07 would come from fund made up of the assessment taken from the wages of each employe.

The national pension bill he said would make the pension system a federal proposition. A pension board of five members would be appointed by the president and the money would be in the hands of the treasurer of the United States.

Charles L. Moeller of Columbus, chairman of the Columbus branch of the national pension association, also spoke at the meeting. He predicted that within three years the pensions now being paid by the individual railroad companies, would be entirely discontinued.

ROOSEVELT RECEIVES FORMER WILSON AID

Col. House Reappears on Political Scene After Long Absence.

By The Associated Press

NEW YORK, July 18—"The little grey man from Texas" is back on the political scene, acting as adviser to a Presidential nominee who was just a youngster, filling an under secretaryship, when he himself was at the height of his activities in Washington.

Col. Edward M. House, who picked Franklin D. Roosevelt as his pre-convention candidate for the Democratic presidential nomination as he had picked Woodrow Wilson under the same circumstances 20 years ago, had his most recent chat with the nominee aboard the Myth II off Marblehead, Mass., Saturday.

Colonel House came out months ago in support of Governor Roosevelt, who was assistant secretary of the navy when he himself was President Wilsons adviser and emissary.

The man President Wilson sent three months before the World war to warn Great Britain, France, and Germany of the imminence of war, will be 74 on July 26.

Until he appeared, apparently as a Roosevelt advisor, nothing had been heard of him in a political connection for some years.

There isnt much speculation as to whether he will have any title or take any formal part in the Roosevelt campaign organization. He never did during his long association with Wilson.

The Wilson-House association broke up on what was to the latter a note of mystery. On June 19, 1919, after he had served as Wilson's spokesman at the peace conference, House and the President parted in Paris—never to meet again.

Inspectors Will Keep Eye on Monthly Due Bill Mail

By International News Service

CLEVELAND, O., July 18—Postal inspectors for the Northern Ohio federal district are laying plans to keep a "watchful eye" on the volume of mail going through the postoffices early next month.

It is early every month, you know, when all the bills trickle in and the postal inspectors are wondering if the recent increase in mail rates will affect the number of bills sent through the mails.

Should some company usually mailing a large number of bills not do so at the customary time next month, there will be an inquiry: "Why?"

There is a law, it seems, giving the United States government an absolute monopoly in the business of mailing and delivering letters. And the "watchful eye" will be set for companies which may decide it would be cheaper to hire their letters delivered by private messenger than by paying three cents per copy to Uncle Sam.

"Whoever shall establish any private express for conveyance of letters by regular trips at stated periods over any established postal route shall be fined $500 and sentenced to not more than six months in the penitentiary."

A peculiar quirk in the law is giving the inspectors something to think about, however. An amendment, tacked on the original bill apparently for the benefit of telegraph companies, reads:

"Delivery of letters by private hands without compensation or by special messenger employed for the particular occasion can not be construed as a violation under this statute."

It has been suggested that nothing could stop some company with several thousand bills from calling up an individual or messenger service concern and ordering it to deliver its letters on a certain date.

That type of contract, it was pointed out, would not violate the section of the law which prohibits transportation and delivery of letters "by regular trips at stated periods over established postal routes."

Postal inspectors replied, however, that if some company does resort to that method of delivering its bills, prompt notification of the act will be sent to the postoffice department in Washington with a recommendation that a test suit be filed in court.

100 FROM MARION AT PICNIC OF ERIE VETS

Annual Outing at Conneaut Lake Attended by 2,000 Persons.

More than 100 Marion employes of the Erie railroad and their families attended the Erie Veterans Association annual meeting and picnic Saturday at Conneaut lake, six miles north of Meadville, Pa. Approximately 2,000 persons attended.

Local members were provided free Pullman service to and from the meeting on special trains. The group was in charge of Amos L. Conrad freight agent here. T. J. Murphy superintendent of the Kent division accompanied them.

R. E. Woodruff vice president of the road of Cleveland and John M. Condon assistant vice president also of Cleveland, both former Marion men, were among the Erie officials present for the all day affair. Sports and entertainment followed the business meeting.

Officers for the ensuing year were elected. They are D. R. Quindry of Cleveland president; Martin J. Quick of Jersey City, vice president; J. R. Ward of Dunmore Pa. secretary; William Hammer of Cleveland, treasurer.

HIGHWAY EASEMENTS KEEP RECORDER BUSY

State Files 100 for Rights-of-Way Along Routes To Be Improved.

Fifteen tracts of Marion and Marion county real estate changed hands during the week ending Friday, deeds on file in the office of Charles A. Markert, county recorder show. Nine mortgage loans for a total of $17,062.61 also were recorded.

The week was an unusually busy one for the recorder and his assistants, due to the recording of approximately 150 easements granted by property owners to the state highway department and nearly half that number of partial releases of mortgage to free the easements from liens.

The easements were along sections of route 30 S. or Harding highway which is being widened by the state, along route 53 which also has been widened in sections and along the recently acquired state route between Marion and Ludlow which eventually will be a link in a highway connecting Marion and Bellefontaine.

Realty transfers for the week follow:

BUILD $9,150,000 OHIO RESERVOIR

YOUNGSTOWN, O., July 18—Industries in the Mahoning valley, particularly the iron and steel industry, are interested at this time in completion of the Meander reservoir project which will supply Youngstown and Niles with its commercial water needs and leave the Mahoning river for the exclusive use of industrial plants.

When business and operating conditions are normal, valley industries suffer by reason of inadequate water supply, due to the drain on the resources of the Mahoning river.

At a cost of $9,150,000, the reservoir is being built by the Mahoning Valley Sanitary district, created by special act of the Ohio legislature. The reservoir had a capacity of 10 billion gallons of water. It inundates 5,500 acres.

FIREMEN RESCUE 4 TRAPPED IN MUD

CLEVELAND, O., July 18. Little Anna Sedesik, 11, and her 10-year-old chum, Anna Peters, have resolved to discontinue their alpine activities until some future date when they won't be so precarious.

Lost in Metropolitan park one rainy day, the two girls decided to climb a 90-foot cliff and find their way out. Half way up the hill, they became stuck in the mud.

They sighted two fishermen in Rocky river at the bottom of the hill and attracted their attention. The fishermen came to their assistance and also became mired in the mud.

Noticing their plight, a park policeman called the fire rescue squad. Two firemen were lowered on ropes and brought the four marooned persons to safety.

SENTENCE DAMPENS SPIRIT OF GOLFER

By International News Service

DENVER — Wilson Reinbold, 19, is spending an indeterminate term in the Colorado state reformatory at Buena Vista, where the inmates do not play golf.

Reinbold was brought into district court, charged with stealing a set of golf clubs valued at $125 from the private garage of W. A. Wood.

"I love golf," he told Judge Robert W. Steele, "so I borrowed Mr. Wood's clubs, and I was on the way of the golf course to practice when [illegible] and took the golf set."

HER EYES HAVE IT

Although Dr. Henry T. Smith, a native of Texas, has looked into several thousand eyes during his career as an ophthalmologist in New York, it was not until he looked into the eyes of Helen Menken (above), Broadway actress, that things began to happen to his heart. The result is that Miss Menken has become Mrs. Smith, the switch in names having been made by Mayor James J. Walker.

PRINCE HALTS MATRIMONY RUMORS

Picks Youthful Matrons for Dance and Bridge Partners

By International News Service

LONDON—Apart from standing forth from the park as a leap year, 1932 can lay claim to one other distinction—that of being the only one since the war that the Prince of Wales has not been rumored engaged to a princess or a commoner.

Old Lady Gossip, whose tongue once wagged so freely about the prince's legendary brides-to-be, has apparently given up in despair, for she at last has come to recognize that though the heir to the British throne may have a wonderful record of falls from horses to his credit, he is determined not to fall for any of the thousands of hopeful maidens who would like to be the Princess of Wales.

The reason for the usually talkative dame's reticence is the plan of strategy followed by Prince Eddie lately. The world's most eligible bachelor, irritated by constant rumors of his matrimonial intentions, has taken to avoiding all the single maidens of his set whom he has to meet at social functions.

Of course, Wales is as charming as ever to the fair sex, but he no longer gives the rumor mongers a chance to couple his name with that of any one girl in a matrimonial sense, because his partners at bridge, parties and dancing are all young married women, whose thin, gold bands protect his highness from the wagging tongues of those whose one mission in life seems to be to have Wales safely married off.

Among the prince's favorite woman companions is Viscountess Furness, the former Miss Thelma Morgan Converse, American-born daughter of Harry Hays Morgan, former United States consul general in Belgium.

Wherever the prince is to be found, surrounded by members of the exclusive section of English society of which he is the acknowledged leader, the American viscountess is usually the "life of the party." Unhampered by the hidebound traditions that place royalty on an almost divine plane, Viscountess Furness, who has retained her American heritage, independence of spirit, treats the prince as he wants to be treated—just like a human being, a regular fellow who likes to have a good time without a lot of ballyhoo.

Another Favorite Companion

Another of the prince's favorites is Mrs. Dudley Ward, one of the leaders of London's smart set, who was one of the first to become a regular partner of the British heir. Mrs. Ward is a vivacious, petite brunet, the prince apparently being an exception to the rule that gentlemen prefer 'em straw-topped. She is noted for her wit and dr humor and has a debutante daughter who is more like a sister.

There are other charming women in the prince's select circle, but none is unmarried and therefore even Dame Rumor in her wildest flights of imagination can not designate any of them as the next "Princess of Wales."

Prince Eddie's evident unwillingness to start housekeeping has caused the British government no little amount of worry. King George isn't growing any younger and one day Wales will awaken to find himself King of England with his hand wrapped firmly around the helm of the British Empire.

Although there has been a maiden queen in England, royal and parliamentary circles are alarmed at the prospect of a bachelor king and have striven time and again to make Eddie see the light. They have pointed out that it is his patriotic duty to marry, but they insist that they must choose his bride, all of which leaves Wales quite cold.

It is generally believed by those close to the prince that he has no desire to succeed to the position occupied by his royal father. It has been rumored more than once that Wales would be only too willing to step out of line and surrender his claim to the crown and sceptre to his younger brother, Prince Albert, Duke of York, who is married and has children. Whatever Wales decides to do, it is very apparent that he has taken the old maxim for his slogan—"You can drag a prince to the altar, but you can't make him say 'I will.'"

Sondra looked around the room with blank eyes.

Yesterday morning she and Mark had been married, and this morning they were to part—perhaps for ever.

The last 24 hours seemed like a dream—the hurried arrangements, the casual excuse to Flora about going to spend the night with some friends out of town—the unromantic ceremony at City hall,—a few hours' happiness, and now—this.

She looked curiously at her bare left hand from which a few moments ago Mark had taken the wedding ring and kissed it, before he watched her put it safely away out of sight of an inquisitive world. Married! She was no longer Sondra Kent—she was Mark Merriman's wife, a fact which was to be kept jealously guarded until Mark came home again.

They had both agreed upon that, it had seemed the wisest plan. It was nobody's business but their own.

Presently—in one short hour—she would go back to Flora's pretentious, unfriendly house as if nothing had happened, and Mark would be rushing away on the liner.

Mark came back into the room. He had stopped whistling, and there was a hard, strained look about his face.

"I've told them to send for a taxi," he said; he avoided looking at Sondra.

After a moment he went on:

"The time will soon pass. It's amazing how quickly the time passes....I shall write every mail. ...Where the devil is my pipe?"

"On the mantelpiece," Sondra said.

"Oh, yes," he took it up, and thrust it into a jacket pocket, giving a last look round the room. His eyes came back to his wife.

"I suppose we ought to go."

"Yes."

He came across the room to her. "You're not sorry?" he asked hoarsely, "about—everything?"

She shook her head dumbly.

He put his hands on her shoulders.

"It's been so wonderful, Sondra."

She made a swift movement towards him, hiding her face against his coat and his arms closed round her.

He said in a rough, shaken voice, "You'll take care of yourself, won't you, my darling?—and write to me often. I'm glad you'll be all right—about money, I mean."

"Yes." Even in that moment of tragedy it seemed strange to Sondra that Mark should always so quickly have assumed that she was well off—Flora's reflected glory, she supposed.

He went on disjointedly. "I shall send you every penny I can spare." He stopped again, only to break out with a note of agony in his voice. "Don't forget me, Sondra . . ."

She clung to him, weeping now.

"Don't go, Mark—don't leave me . . . oh, don't go."

He tried to laugh, lifting her face to his.

"My darling, you know I must. But it won't be for very long—somehow, in spite of everything, I believe we shall soon be together again. Oh, Sondra, don't cry, I can't bear it."

"And if I find I can't live without you, Mark?"

"Then you must come to me."

She tried hard to control herself.

"Yes . . . I know . . . I shall be all right . . . it's just saying goodbye—I meant to be so brave, and now . . ."

"It's not goodbye—I won't let you say that word . . ."

He took her face between his hands, and looked long into her eyes.

"Say you love me."

"I love you."

"And I love you—with all that I am—and ever shall be."

He kissed her many times, on her eyes, her hair, and her throat, and then once in a long kiss on her quivering lips.

"For a little while, my sweet."

He let her go at last, and turned resolutely away as someone knocked at the door. "Your taxi, sir."

"Coming."

Sondra was bathing her eyes, trying to check her sobbing.

Mark lit a cigaret and puffed at it fiercely.

"I suppose I musn't kiss you at the boat?"

"Is someone coming to see you off?"

"One or two people I expect. Not mother—she promised she wouldn't. I expect Anderson will be there."

"Oh."

"We must go, my darling," Mark said very gently.

"I'm ready."

He caught her in his arms as she turned to the door.

"God bless you my best beloved."

She dared not answer, could not trust herself to look at him, and together they went downstairs to the waiting taxicab.

I was such a short way to the pier, Sondra held Mark's hand tightly, her lips resolutely pressed.

"I shall write to you from every port. I'll cable too," Mark said.

"You mustn't be too extravagant."

"You'll always love me—faithfully, Sondra?"

With an effort she controlled her trembling lips.

"And you, Mark?"

"Always."

The taxi stopped.

Sondra stood on the curb while Mark paid the driver.

"It's just a dream, that's all," she kept telling herself resolutely.

They went on the boat and found Mark's stateroom.

Several men friends of Mark's joined them on deck.

Mark stood at the rail, smoking hard and talking carelessly.

"I suppose you'll all be dancing tonight," he said ruefully. "While I shall be tossing on the waves."

Some one asked, "Isn't Anderson here?" and it was Sondra who answered, "He was not sure if he could come."

Already there were signs of departure—last goodbyes and kisses.

"I simply must see what your stateroom is like," Sondra said.

She hurried away from the group.

In a moment he followed her, as she intended that he should.

"I can't bear it Mark—"

"It won't be for long—somehow I'm sure it won't be or very long, my darling."

"If only I were going with you!"

The warning call sounded through the sunshine outside.

Mark's tall figure almost blocked up the doorway, and nobody saw when he took his wife in his arms for a last kiss.

"God bless you— for ever and ever . . ."

She was on deck again, smiling heroically, laughing a little hysterically.

"Wouldn't it be fun if we were all going? It's so dull . . . being left . . . behind . . ."

A tall man pushed his way through the crowd.

"Goodbye, Merriman." It was John Anderson.

The two men gripped hands.

"Goodbye, and the best of luck."

"Goodbye, sir, and a thousand thanks."

"Goodbye . . . goodbye . . ."

Slowly, the ship started to move.

Mark's eyes were on Sondra's face to the last moment, till the boat slipped down the river and he was lost to sight, and even then Sondra stood where she was, staring blankly after it.

There seemed no sense in moving away—where in the whole of the great empty city could she go?

My Beauty Hint

BY LORETTA YOUNG

EVERY woman wants to keep her hair fluffy and beautiful, and here is how I learned to do it.

My hairdresser told me not to wash my hair too frequently as it would take the life out of it. So now I dip my hair in cleaning fluid every other day while I am working.

It works fine; keeps it soft and fluffy. I just put my head in the wash bowl and have the cleaner poured over it. It dries in a very short time.

The Stars Say

For Tuesday, July 19

THE astrological forecast for this day heralds sudden change, possibly precipitated by an incentive to high initiative and enterprise. The faculties and forces will be keyed up to high pressure and these may instigate an important change or journey. It is a day for adventure, new effort and unusual progress in untried lines, but there may be minor personal trials or concerns.

Those whose birthday it is stand at the opening of a year of sudden adventure and high enterprise, probably in new projects of untried avenues of skill or investigation. The faculties and energies to initiative will be under fine impetus for tackling the unusual and speculative, but personal affiliations have some slight concern. A child born on this day should be talented, original enterprising and adventurous and should have a conspicuous and successful life.

Notable nativity: Dr. C. H. Mayo, noted surgeon.

WOOSTER ATHLETE GETS COLLEGE JOB

WOOSTER, O., July 18—Alfred B. Sears, graduate of Wooster college, will complete all requirements for his doctor's degree in history at Ohio State university this summer and is to become assistant professor of history at the University of Oklahoma this coming school year.

While at Wooster, Sears starred on coach Boles' undefeated 1932 football team. He also captained Wooster's baseball team.

After his graduation at Wooster he coached for three years at Bellaire high and two years at Otterbein college.

In 1928 the University of Wisconsin gave Sears a master's degree in history.

"Heart of a Wife"

BY ADELE GARRISON

Harry Underwood Sees a Storm of Jealousy Gathering and Interposes in Time to Delay Its Breaking Over Madge's Head.

"THERE is a man back in the hills a few miles who considers himself under deep obligation to me—and justly, too," Dr. Barnes said slowly. "I was able to save him once from something most unpleasant, and he is grateful enough to do for me anything I ask.

"From his mountain farm you can get by good roads to three main thoroughfares, and he has shacks enough on the place to house a regiment. At least, it looked that may to me the last time I was there. Whatever men or material you wish to conceal there until they are needed, will be as secure from observation as it is humanly possible to make them. Just give me time in the morning to drive over there and see him. I'll go early, and I'm sure you can make your headquarters there indefinitely."

A Storm Brewing

"Let us hope that we won't need him longer than tomorrow night," Hugh said quickly, and I knew that he had heard Lillian's quickly indrawn breath. "But you have relieved my mind greatly. I can concentrate everything there tomorrow and get ready for action."

Dicky got up and stretched his arms above his head with apparent nonchalance; but I had caught the dancing light in his eyes, and knew that my premonition of resentment against Hugh on his part would soon be justified. Unconsciously my eyes went to those of Harry Underwood. If any one could manage my temperamental husband, he could.

"You don't need me any longer, do you, Dad?" Dicky asked my father, with all his usual deference in his tone. "The only part I've got in this thing is to stay in the air, and while it doesn't amount to much, it does make a fellow sleepy. If I have to get up in time to drop that note to our kidnaper friends, I'd like to hit the hay pronto. What say, mein frau? Ready to go with me?"

I made a hurried, purposely eager assent.

Harry Averts Trouble

"Oh, yes, Dicky, any time you say."

Harry Underwood raised his big figure from his chair, and going over to Dicky took him deftly by the coat collar and set him down in the chair again. As he did so he said something from the side of his mouth that no one caught but Dickey. That it was an adjuration of some kind, and an effective one, I guessed when my Peter Pan first stiffened angrily, then grinned up at his friend.

"Who gave you any license to talk about sleep?" Mr. Underwood growled. "To quote a classic of the prize ring, 'who-in-'ell's been holdin' any umbrella over Mitchell?' for whom interpret the rest of us. You stay put right here, or—here's a bright thought—there's no need keeping the femmes here any longer, is there, chief? All the main points of this thing have been decided. The rest of this stuff is simply routine, for, of course, we can't plan the final ambush until the Dicky bird makes his report tomorrow."

"No, there is no possible reason for them to stay any longer tonight," my father said.

"Then we ought to get back as soon as possible," Lillian said briskly. "If Helena wakes and finds me gone Sam's suspicions are apt to be aroused."

"There, old socks, Harry Underwood resumed with a grin at Dicky. "Suppose you run our wives over to the hotel, and then get back here as soon as the Lord will let you."

A Mysterious Message

"All right. Dicky acquiesced promptly, but I noticed that Harry Underwood was close to him every second until we were all in the car, and just as we drove away I caught a low murmur not intended for our ears.

"If you get temperamental over this thing I'll take you apart in inch sections."

Dicky chuckled as he invariably does at his old friend's nonsense, but he hastily spoke all the way home and his hurried good by kiss was distinctly perfunctory.

"Better go straight to bed," he cautioned softly as he opened the hotel door. "I don't know how long we'll be."

"All right," Lillian answered, and then we were in the dimly lighted lobby with only the night clerk visible. Then a slight figure, Noel's, rose from a chair at the side, one so big that, turned with its back to the door, it had completely shielded him from view.

"Mary's upstairs," he said. "But I asked the clerk if I could stay down here until the men came home. He thinks I want to see them about something, doesn't suspect anything, but I couldn't bear to leave you without a man around. Ronald has his hands full with his mother, and of course we don't know yet where to count Braxton on this thing."

"I'm awfully glad you're staying, Noel," I told him promptly and then Lillian and I went on upstairs, by mutual agreement going directly to our separate rooms.

"If Helena does room around let her find us apparently asleep," Lillian said.

But it was not Helena who came wild-eyed to my door an hour later. When I drew the bolt at a soft insistant tapping, Ronald caught me by the arm.

"He's gone out again," he whispered. Copyright 1932, King Features Syndicate, Inc.

ADOLPHE MENJOU IN BACHELOR'S AFFAIRS TO SHOW AT OHIO

Moonlight, an ocean voyage and a flapper's inviting eyes work havoc in the plans of Adolphe Menjou who will be seen Tuesday, Wednesday and Thursday at the Ohio theater in "Bachelor's Affairs." Minna Gombell engineers the marriage of Menjou to her "beautiful but dumb" sister, Joan Marsh.

The romance begins on an ocean liner and Menjou's summer home is the setting for the finish. Complications are thick and involve Menjou's business partner, played by Allan Dinehart and his secretary, played by Irene Purcell. A good-looking architect, Arthur Pierson, enters into the picture and affairs take a turn for the better so far as millionaire Menjou is concerned.

The comedy was adapted from a successful James Forbes play and was prepared for the screen by Barry Conners and Philip Klein.

BEST AND POOREST TEACHERS DEFINED

49 Traits Listed in Survey Among School Superintendents.

By International News Service

COLUMBUS, O., July 18—Forty-nine traits are listed by Ohio school superintendents as marking the differences between the best and the poorest school teachers, according to a study published in the Ohio State university educational research bulletin. The study was made by Viola M. Bell of Columbus, a graduate student, under the supervision of Dr. Earl W. Anderson of the bureau staff.

The data were obtained by questioning 17 experienced superintendents of schools enrolled at Ohio State university last summer. Each was asked to describe the best and the poorest teacher he had had.

Among the traits possessed by most of the best teachers were: Self-control and poise, tactfulness and good judgment, refinement, understanding of pupils, evidence of professional growth, outside interests, good teaching methods, knowledge of subject matter, interest in pupils, ability to maintain discipline, good use of supplementary materials, skill in directing study, and standing in community.

Among the trait most lacking in the poorest teachers were self control and tactfulness, good judgment, understanding of pupils ability to maintain discipline, and standing in the community.

The traits were divided into six classes as follows: Personal qualities, professional qualities, class room management, class procedure, pupil responses, and adaptability to community. For the 17 best teachers, 23 traits were mentioned nine or more times and not one trait mentioned was noted as lacking more than twice.

"The poor teachers," Miss Bell writes, "stood out primarily not by what they did but what they did not do. Thus, more than three-fourths of the poor teachers were wanting in good judgment and practical intelligence.

"Weaknesses often listed were lack of tact and self control, inability to interest pupils and to get them to attend to their lessons or to behave. The good will of the patrons was not gained because these teachers were unable or unwilling to abide by the ideals of the community."

Marion's Good Fortune.

People of Marion do not underestimate the value and significance of their city having been selected as headquarters for the Ohio Electric Power Co. and all of its component units. Decision of the officials of that extensive public utility concern to center their business operations here is something that should inspire all citizens to increased pride and confidence in their community and its future.

Transfer of its main executive functions to Marion was made by the Ohio Electric Power Co. only after careful and thoughtful consideration of every element involved in the transaction. That may be taken for granted even by those of the public not familiar with the management of corporations engaged in widespread and important operations.

In the first place, the aim of this company, which controls the distribution of electrical power to numerous communities throughout Ohio, was to select a place where centralization of operations would be most advantageous and effective. That was desired in order to obtain a maximum of efficiency that would benefit not only the company, but its thousands of customers as well. Of all the many points in the company's wide scope of operations Marion was chosen. That speaks well for Marion. Not in a good many years has this city received recognition so notable and encouraging in the business and industrial field.

The city's location and the fact that the power plant and other property of the C., D. & M. Electric Co., a recently acquired unit of the Ohio Electric Power Co., were here, of course must have been one of the decisive factors in establishment of a main headquarters.

It is altogether likely, though, that this piece of good fortune would not have come to Marion had the city failed to measure up to requirements in other important respects. It was necessary that the city impress officials of the Ohio Electric Power Co. as a community with a promising outlook for future growth and advancement. It was necessary that community leaders, the men at the helm in business and industry, show evidence of possessing ambition, enthusiasm and vision and that the rank and file of the people measure up as intelligent, friendly, fair-minded and thrifty. It was desirable, too, that citizens as a whole be public-spirited and mutually interested in general community welfare and progress to the extent of maintaining amicable relations and cooperation between employers and employes, business interests and the public.

It was important that living conditions here be on a standard that would assure a desirable place of residence for company officials and their employes.

We believe the future will prove that Marion provides these requisites and that officials of the Ohio Electric Power Co. will never have reason to regret making this their headquarters.

To the people of Marion this cheering and propitious business development serves as a lesson and inspiration for future conduct and direction of the city's affairs. It provides evidence that there is possibility of making Marion so attractive and inviting that other substantial additions to the community's business and industrial structure may be made during coming years.

Qualified for Leadership.

Ohio Republicans made a wise and favorable beginning in their preparations for battle when Charles H. Lewis of Harpster was elected campaign manager.

Under the direction of this capable and successful Wyandot county business man the G. O. P. forces should be assured a well-organized and sensibly conducted presentation of their cause to the public. Methods used may in some respects be different from those followed by the average type of political leaders but in that circumstance there is promise of results considerably above the average.

Mr. Lewis is not a professional politician and that is likely to have a salutary effect upon Republican campaign affairs. The public is more than a little weary of the old line political leader and his rather stereotyped and not always altruistic ideas and practices. Especially this year, with the need for remedial and constructive public service more apparent than it has been in decades past, are the people viewing with favor men in the political picture whose records and characteristics inspire confidence and hope of improvement in the government.

The man chosen by Ohio Republicans to direct their campaign seems to possess these qualifications. In private endeavor his work has been in important undertakings efficiently managed and of benefit to the community where his activities were centered. In public life his achievements and service have been of like nature. At no time has Mr. Lewis ever been of the showy, spectacular type of political leader or public official that has been in vogue to an extent probably too pronounced for the best interests of government. His style and methods have marked him as the calm, reasoning and business-like organization man whose judgment can almost invariably be relied upon as sound and sensible.

Obviously the service of a man of this caliber [illegible]

Views Plainly Spoken.

It will be pleasing to people of the Eighth Ohio congressional district to know that their representative was not in sympathy with some of the enactments and methods of procedure in the session just brought to a close.

The courage displayed by Congressman Mouser in voicing his views in vigorous and aggressive terms of unmistakable candor, face to face with his colleagues, is especially deserving of hearty approval by his constituents.

Early in the session he took the floor to assail some members of congress for the practice of nepotism. Government records, it seems, revealed that some legislators had placed relatives on the federal payroll in jobs that called for no actual service. Congressman Mouser felt that this practice is indefensible and he did not hesitate to tell his associates so. Furthermore, he introduced a resolution to remove all such parasites from the list of employes. The proposal was voted down, but Mouser had started something which won expressions of approval throughout the country in editorial columns and other channels of public comment and also opened the way for voters to show what they think of nepotic congressmen when they cast their ballots next fall.

Then in the session of the house of representatives on July 8, Mouser again took occasion to point out that the nation's legislative body could improve upon its manner of attending to the public's business.

A page in the Congressional Record gives an account of the Marion man's speech which followed presentation of the President's message in which Mr. Hoover had urged speedy action on important pending legislation, particularly in relation to unemployment relief.

Opening his address, the Marion congressman said: "Mr. Chairman, I hope the few remarks I make this afternoon during this talk fest, which is costing the American taxpayers money, will be helpful. . . . . I want to address myself for a few minutes to the necessity of getting down to business and passing the important measures now before us in the interest of economy and going back to our homes. Every day we delay in this house it is costing the American taxpayers $41,000. The more we embark upon the dangerous seas and isms and experiments, we are doing so to the detriment of the American taxpayer. It is easy to talk; it is easy to theorize and conjecture, but we are forgetting that a pay day must come. • • • •

"Let us quit talking theory. Let us quit conjecturning. Let us pass a relief measure that is sound, that is not tinged with political demagoguery, and then adjourn this congress, after passing the home loan bank bill and other measures now pending in order that we will practice what we preach, economy. Let us stop this expenditure of $41,000 a day every day we are in session. I appeal to you regardless of party, to practice economy and not be making a lot of hot-air speeches on the floor of this house about it."

In his speech, Congressman Mouser voiced his views on various phases of the relief bill and also taxation, including opposition to the two-cent tax on bank checks as one of the features of the new revenue bill that he believed would be injurious to business and encourage hoarding.

He urged enactment of a relief measure that would provide a maximum of aid for the unemployed but which would not necessitate creation of government bureaus adding huge federal operating costs.

His predominant theme throughout was the urgent need for hastening proceedings to a satisfactory conclusion. It was more than a week later that congress completed its program, but in that time much was accomplished, and that is really a speed record for congress.

With more men of Congressman Mouser's view point on the job, the session's work might have been finished and a better job done several weeks earlier.

Blaming the Colleges.

The president of Oberlin college, one of this state's sound educational institutions, reminds the world from a speaker's platform at Teachers college, Columbia university, that it is still the fashion for men in his position to belittle their accomplishments. In doing so, however, they somehow manage to assign to their activities an importance all out of proportion to the common conception of it.

Colleges are not expected to save the world, or any portion thereof, contrary to the stated beliefs of Oberlin college's President Wilkins and other prominent members of the educational circle. By constantly apologizing for the failure of their institutions to do so they come dangerously close to that point of public impression which it behooves staid men to avoid—ridiculously. If it be their intention to impress on the people that the American college should be doing a better job, there will be no argument. If they are trying to locate the blame for national failure to avoid economic and social messes, however, they should be enticed back to reality before it is too late.

President Wilkins makes this sweeping statement: "For nearly 50 years now the leadership in most fields of American life has been in the hands of college men and women. The general life of society today is, therefore, largely a product of college influence. If American life at this time is unsatisfactory, if it is marked by unstability, injustice and by an increase in human happiness, then the college is very largely to blame." The indictment is a common one; the head of Oberlin college merely repeats what many of his professional brothers have subscribed to in humble spirit.

There is nothing to be gained from it. Saving the world is not part of the job of American colleges. They service the individual. If eventually they get enough good material to turn out a sufficient store of collegiate leadership to save the world, no one will begrudge them credit for that job, though every one will know that actually they had very little to do with it. In the meantime, no one is going to concede them the responsibility for what hasn't been done, eager as they are to bend their backs for it.

SWAT 'EM!

Some 50 years ago there were 450,000 cases of typhoid fever each year and an annual death toll of 45,000 from that disease. By 1925 the cases had dropped to 150,000 and the deaths to 15,000.

This 300 per cent decrease is due chiefly to one thing: the war on the common house fly that carries germs to human food. Screens and the swat-the-fly movement have almost killed this once great killer.

Daily Guide to Health

BY DR. ROYAL S. COPELAND.

Baby's Skin Requires Gentlest Care.

An infant's skin is extremely sensitive to all irritations, both external and internal. That is why baby's first bath should never be a soap and water bath, but rather of good olive oil. Subsequently bathing should be done with warm water and a good quality soap.

Dry the skin thoroughly with a very soft cloth, preferably of linen. A liberal powdering should follow the bath, and for this purpose use a good grade of baby powder. Cheap, highly scented talcum should not be used, for the ingredients may prove to be impure and harmful to the baby's delicate skin.

Babies frequently suffer from irritation where two surfaces of skin touch each other—between the arms and the body, the chin and the chest, or between the thighs. This complaint is most common in fat babies. Lack of care in keeping the baby clean, failure to remove promptly any wet or soiled clothing, and use of coarse soaps in washing the baby or his clothes, are frequent causes of skin irritations. The baby's garments should be rinsed in several tubs of clear water before drying, to make sure all the irritating soap is removed.

To relieve irritation around the buttocks, oil may be applied. A useful mixture is one part of castor oil and two parts of olive oil. After this has been applied, the parts should be dusted with a good talcum powder, preferably one containing zinc oxide. In a few days marked improvement is usually noted.

Prickly heat is another torment of babies during the warm weather. It may appear, too, in cooler weather if thick woolen underwear is worn. The swelling of the skin shuts off secretions of the sweat glands of the affected parts.

The treatment is frequent bathing and the application of talcum powder. Your doctor may advise a laxative and plenty of water should be taken between feedings. If flannel garments irritate the affected area, a thin muslin shirt should be worn next to the skin.

Delicate, ill-nourished infants may have boils, particularly on the scalp. In that case the general health of the baby should be improved, and great care should be exercised in the baby's bathing, in its feeding and in giving it an abundance of fresh air.

Boils are caused by germs penetrating the skin. Internal treatment should be prescribed by a physician, while a solution of boric acid may be used on the diseased skin. At times an excess of sugar in the feeding formula may help to induce this condition. In breast fed children it has been traced to the mother's excessive candy eating.

During teething, especially in nervous children, various abnormal skin conditions may develop. A prudent mother will be careful to give her child only the simplest food and will see that the bowels and kidneys, as well as the skin, are acting normally.

Glimpses of the Past

TEN YEARS AGO.

It was Tuesday, July 18, 1922.

At a two-hour session of the cabinet devoted to discussion of the industrial situation, it was decided that President Harding would address a communication to governors of all the states calling upon them to protect by use of troops, if necessary, the public interest, which had been endangered by the railway and coal mine strikes.

William Nelson, 72, died at his home at Brush Ridge following a week's illness.

Congressman Charles L. Knight of Akron, candidate for the nomination for governor on the Republican ticket, spoke at the Grand theater. "My fight is to return this state to a constitutional government. If that be radicalism, make the most of it." He said that within six years the tax in Ohio had risen from $6 per capita to $47.50.

Mrs. Roy Ewing was hostess to members of the Jewel club at her home on Cummins avenue.

The Tuesday Afternoon club was entertained by Mrs. Philip Ebert at her home on Chestnut street.

King Stout won the McMurray Sulky stake race, feature event of the second day's program of Marion's little grand circuit races, for a purse of $1,000.

Mizpah Encampment, I. O. O. F. installed newly elected officers headed by H. B. Prior as chief patriarch.

A party was held at the home of Mr. and Mrs. Fred Mack in Waldo honoring Mrs. William Strine of Waldo and Mrs. Thomas Moore of Marion, twins, who were celebrating their seventy-third birthday anniversary.

TWENTY YEARS AGO.

It was Thursday, July 18, 1912.

William Shapiro, who drove the automobile which carried the gunmen who killed Herman Rosenthal, New York gambler, after Rosenthal had accused the police of having been in league with the gamblers, disclosed he had been told by one of the murder party that the police had been "fixed" and that official arrangements had been made for the slayers to escape. Jack Rose, friend of Police Lieutenant Charles A. Becker, whom Rosenthal alleged to be his partner, was arrested on a charge of murder.

Fred Schaible was installed as president of Marion Chapter, American Insurance Union.

Newly elected officers headed by Albert J. Whiting as emminent commander, were installed by Marion Commandery, Knights Templar.

LANDSCAPE PAINTER.

Thomas Cole, founder of the Hudson River School of Landscape Painting, was a native of England, but spent his early years in Steubenville, O. He was 19 when the chance visit of a traveling portrait painter started him upon the career in which he was to excel.

That was about 1825, and he was a rather reserved sedate youth who took no part in sports with the boys of the town. He liked music and the piano at his home was the only one in the region. He was pictured by one writer as riding an old-fashioned velocipede — the kind propelled by the feet touching the ground. He was jealous of the vehicle, and no one ever mounted it but himself.

He left Steubenville when about 25 to go to Zanesville, and shortly thereafter went to Philadelphia and then on to New York, where he made his name as a landscape painter. He died in 1848, and William Cullen Bryant, who had become his friend, delivered an oration at his funeral.

The Marry-Go-Round

BY HELEN ROWLAND.

"DEAR LITTLE DIARY!"

Men are beginning to demand equal rights with women. More still, they are helping themselves to all woman's special privileges, from fancy lingerie to permanent waves and waistlines.

But the limit was reached when a wealthy young New Yorker's "dear little diary" was read aloud in court by his wife's attorney, confessing all his boyish emotions with names and dates.

• • •

Women have always kept diaries, since the first cavewoman learned how to carve her secrets on a rock when the first caveman refused to listen to them. But, outside of a few literary geniuses like Samuel Pepys and Benjamin Franklin, very few men have ever been impelled to keep tabs on themselves. Every day is "another day" to a man—and his tomorrows are much more interesting than his yesterdays.

A woman just loves to dramatize herself and to spill her soul, her thoughts and her secrets on paper. That's one way of getting a lot of things out of her system, and if there is no man or woman at hand to whom she can "confess all," then she will tell it to "Dear Little Diary"—and Little Diary is defenseless!

But the average man has always preferred to keep his secret thoughts, affairs and emotional reactions locked safely within his manly breast. He even hates to waste time writing letters, when he can compress his whole passion on a postcard or into a 10-word telegram.

A girl felt fairly safe to in a man and to trust hi her most precious secrets, that he would forget the next day, anyway. But men are going in for diaries your step!

CURING VANITY.

Because Vera was in the habit of standing long before the mirror, and because she posed and smirked and was forever fussing over her clothes and her hair, her mother made it a point to tell her just how unattractive she was.

"I suppose you think you're pretty, don't you?" she would say. "Well, you're not. You're the homeliest one in the family and you are getting homelier every day because you think so much about yourself."

Her brother took up the song, "Vera's got a face like a scrambled egg."

And her father, "Vera, I'm afraid we'll have to marry you off to a blind man who'll love you for your cooking. You had better make yourself useful because you won't be ornamental."

Thus did the family try to "take the conceit out of Vera." What they did, of course, was to increase violently the feeling of inferiority which had led her to pose in front of the mirror in the first place.

KIRK GIVES ADDRESS AT GRANGE MEETING

State Master Stresses Importance of Increased Farmer Buying Power.

KENTON, July 18 — "No single factor is more important in the betterment of economic conditions than increasing the purchasing power of agriculture," declared W. F. Kirk of Port Clinton, master of the Ohio grange, in addressing a meeting of Hardin County Pomona grange Saturday night at Liberty grange hall.

"The purchasing power of the farmer is no minor item," the speaker said, "and the improvement of this phase would remove much of the present tenseness."

The speaker urged cooperation and increased organization among the farmers that their best interests in the economic and legislative sphere might best be served. He lauded the purpose and activities of the grange organizations.

Referring to the recent request advanced in the state that a moratorium be declared on delinquent taxes due from farm and home owners, he discouraged the idea declaring that it would have a tendency to encourage a situation which "we have been endeavoring to meet and overcome." The matter of delinquencies, he said, could better be taken care of by local officials who are familiar with local conditions.

UPPER SANDUSKY, July 18 — A case was filed in common pleas court Saturday in which Hettie McCauley asks for partition and distribution of the estate of the late Florence Longshaugh Louella Holloway and others are named as defendants.

UNION COUNTY

MARYSVILLE, July 18 — At a meeting of the creditors of Harley Lauer of York township, bankrupt, held in Referee J. H. Kinkades office the claim of the government seed loan of $210 was ordered paid.

In the bankrupt hearing of Harry Taylor, Dover township farmer, all of the property covered by mortgages, was disclaimed.

The deed of J. K. Langstaff of near Richwood, conveying 73 acres of land to Edna Cowgill, has been set aside by the common pleas court. The suit was brought by Tabitha Langstaff against J. K. Langstaff and Edna Cowgill.

The Patrons Mutual Insurance association and the Buckeye State Mutual association have been given until Aug. 15 by Judge F. L. Allen to file their answers in the suits brought against them by Dolph Moore, a farmer living near Broadway to recover insurance money for the loss of his residence destroyed by fire a year ago.

Charging gross neglect of duty, H. M. Herrold has filed suit for divorce from Maggie Herrold, to whom he was married on Jan. 18, 1918.

Judge F. L. Allen has decided that the will of Samuel Robinson, late of Richwood, is valid. Clarence P. Robinson, a son, had filed a suit to set aside the will. The jury had previously given a verdict for the defendant Mrs. Clyde Temple of Prospect.

MORROW COUNTY

MT. GILEAD, July 18 — The Buckeye Milling Co. is now in the hands of a receiver as the result of a suit filed in the common pleas court. The People's Savings Bank Co., a creditor, asked that a receiver be appointed because the business had been run at a loss for some time and there was danger of the concern becoming insolvent. John W. Cook of the hardware firm of Sames and Cook, was named by Judge W. P. Vaughan to act as receiver.

No bids were received at the sheriff's sale Saturday in which 100 acres of land in Perry township involved in the partition suit of Howard McWilliams against Glenn Williams and others was offered. The 100 acre farm was appraised at $2,000 and could have sold for two-thirds of that sum.

Harriet Enminger and Elizabeth C. Hull have filed a foreclosure suit naming Lovell Rowlinson and others as defendants. The petition alleges there is due and unpaid $2,500 on a note secured by a mortgage on a Mt. Gilead property.

HARDIN COUNTY

KENTON, July 18 — Thomas Apostle and Albert A. Powelson filed suit against William Makos for an injunction and equitable relief.

Edward R. Seig, Mt. Victory farmer, and Miss Lucille Elliott of Mt. Victory were issued a marriage license here Saturday.

A two-thirds interest in a farm of 148.29 acres in McDonald township appraised at $2,800 has been sold by sheriff's sale to C. P. Fleece, plaintiff, for $1,734, in the suit against Tabitha Sheets and Grant Bann.

Rev. Gates Preaches Union Sermon at Central Church

The strength of the church in withstanding the onslaughts of skepticism and destructive criticism throughout the ages was emphasized in a sermon delivered by Rev. B. Tyler Gates, pastor of St. Paul's English Lutheran church last night at Central Christian church.

Rev. Gates was the speaker at the union church services in which a number of Protestant churches of the city are uniting during the summer months. Rev. James O. Dodd, pastor of Central Christian church presided and music for the service was furnished by the choir of that church. Young people of St. Paul's English Lutheran church were in charge of the young people's meeting.

Sermon Subject

Rev. Gates chose for his subject, "The Weak Things That Confound the Mighty" and based his topic on First Corinthians 1:27.

"In spite of the aggressive activity of atheism, skepticism and destructive criticism the gospel of Jesus Christ still stands intact," Rev. Gates declared. "Not only has Christian truth stood firm and indestructible against the onslaught of the Godless but has in many cases proved to be the confounding and undoing of these active men and forces," he continued.

The speaker cited the experience of Paul who as the head of a mighty state power, shamelessly persecuted a weak and helpless religious body and was stricken blind, humbled in spirit and made an obedient servant of God and the religion which he had persecuted. In answer to his question "What has been the case of the simple, common things of Nature?" Rev. Gates said: "Men have set up systems of thought denying the existence of God and have attempted to prove that he is not a reality but when these so-called mighty scientific men face the mysteries, the beauty and wonder of God's nature they are confounded and agree with the psalmist, 'the heavens declare the glory of God and the firmament showeth his handiwork.'"

Rises to Power

The existence of the church today is a verification of this God-given Pauline truth, Rev. Gates said. The church has always been a weak and foolish thing to the world but in the days when she was weakest and poorest and the most persecuted she confounded the mighty powers about her and arose to great power and usefulness. To the world the cross of Jesus is a weak and foolish thing but since Christ hung there and died, was buried and rose again the worldly man has stood in its presence in silent respect and confused wonder.

Rev. Gates closed his sermon with a plea to stand on the side of God with the simple, weak and humble things; declaring that "they shall confound the mighty."

Rampaging Indians Rout Boston in Twin Bill Sunda

HOWEVER, NEW YORK ALSO COPS TWO AND RETAINS ADVANTAGE

Jimmy Foxx Drives Two More Homers To Bring Total to 38.

By The Associated Press

Chalmers Cissell, the $123,000 beauty who never could play anywhere near that amount of baseball for the Chicago White Sox, begins at last to resemble the player he was supposed to be when he appeared on the major league scene five seasons ago.

It is the Cleveland Indians, however, and not the White Sox, who are cashing in on the second baseman's long delayed rise to stardom.

Willie Kamm, another coast star who cost Chicago a pretty penny back in 1922, is playing bang-up ball at third base for Roger Peckinpaugh. The pair have rounded out an infield that stacks up defensively with the best of them.

By winning yesterday's doubleheader from Boston, 5 to 4 and 8 to 6, the Indians stretched their spree to 12 victories in 14 games on the road.

For all their winning, however, the Indians are finding it difficult to whittle down the Yankees' big lead. The New Yorkers also captured a Sabbath doubleheader, taking the Chicago White Sox, by scores of 4 to 3 and 3 to 2.

Washington's winning streak was stretched to nine straight with a 9 to 4 triumph over the St. Louis Browns.

The Chicago Cubs picked up a full game on the idle Pittsburgh Pirates when Pat Malone and Charley Root quelled the Giants, 3 to 1 and 8 to 2. Malone allowed six hits and struck out seven in the first.

The Boston Braves also gained ground on the leaders by socking Cincinnati twice, 5 to 3 and 3 to 1.

St. Louis and Brooklyn divided honors, the Cards winning 9 to 2 behind Paul Derringer and then losing the second, 8 to 5, when the Dodgers fell on Dizzy Dean and two relief pitchers for seven runs in the eighth and ninth frames.

OWENS NINE WINS AND THEN FORFEITS

Owens Billiards of Marion scored a 5-2 victory yesterday over Agosta in a Tri-county league contest and then was forced to forfeit for a violation of the league's eligibility rules. The Owens nine used players signed after the June 7 deadline and will forfeit all its remaining league starts.

Darnell struck out 12 Agosta batters and allowed only two hits. Eddie Sawyer was carried from the field when spiked by an Agosta player but was not seriously injured.

PLEASANT LOSES IN NINTH INNING, 16-10

Hyatts, one of the better teams of the Heart of Ohio baseball league turned in a 16-10 victory yesterday over the Pleasant team of the same circuit but it took until the ninth inning to do the trick. Both teams played raggedly, a total of 11 errors being marked up against the two.

The teams went into the ninth deadlocked at 10-10 but Hyatts went on a scoring spree in the final frame that accounted for six runs and assured victory.

Hambleton, Pleasant pitcher struck out 13 men. Weaver struck out 11 for Hyatts.

HOMESTEAD GRAYS TO BRING STAR LINEUP TO NORTH SIDE PARK

Smokey Joe Williams, Noted Pitcher, Member of Club Here Wednesday.

When the Homestead Grays, world's champion colored baseball team invades Lincoln park here Wednesday at 5:30 p. m. for a twilight baseball game, diamond fans will see what is generally conceded to be the greatest aggregation of colored baseball talent ever assembled under one management.

The Homestead Grays have compiled a record which would be the envy of any organization.

Probably the outstanding member of the Grays is the 56-year-old pitcher, Smokey Joe Williams. Smokey has been flinging them across the plate against foes of the Grays for years on end and apparently is not to the end of his string yet. He is expected to work at least part of the game here Wednesday against the Marion Travelers.

Working behind the bat for the Grays is another star who is reputedly good enough to work on major league teams. His name is Perkins. With a throwing arm which is deadly accurate, he flips balls around the diamond with bullet-like speed. Few indeed are opposing players who pilfer sacks with Perkins behind the plate.

The Grays will be opposing what is probably the best team to represent Marion on the road in several seasons. The Travelers have not played a game at home this year, the Wednesday game being the first billed for the local diamond. Chick Skelly of LaRue is managing the team and has strengthened it even more for the battle with the Homesteaders.

The Marion lineup will probably be about as follows: Hipp, third base, Bacon, second, Price, center field, Cross, first base, Rizor, shortstop, Gallant, catcher, Wilgus, right field, Perry, left field, Good, pitcher. Good, a Fremont twirler, will be added if necessary by Schwartz of Lima, Johnny Marshall, Buck Shirk and several others are on the reserve playing list.

Before the game members of the Travelers will put on an exhibition of shadow ball.

No softball games have been billed Wednesday in order not to conflict with the game.

CONFIDENT

Beat Me and You'll Set New World's Record, Babe Insists.

By The Associated Press

CHICAGO, July 18—Anyone who beats Babe Didrikson in the Olympic games will set some world records, and you can take the Texas girl's word for that.

"I can do better than I did last Saturday in every event," Babe said today, "and I don't see any reason why I shouldn't win three first places. If I don't win, whoever beats me will have to set a world record."

She won five first places—in the 80 meter hurdles, broad jump, javelin, baseball throw and shotput, and tied for first in the high jump Saturday in qualifying for three places on the United States Olympic team.

The women's Olympic squad of 16 members left today for Los Angeles and will make one stop enroute.

TWO MAJOR EVENTS ON RACE PROGRAM

By The Associated Press

CHICAGO, July 18—Arlington park's richest prize, $76,600 for the classic, today belonged to M. L. Schwartz's Gusto, but two more valuable events supplied the interest for this week.

On Wednesday the Lassie stakes, for two-year-old fillies, with $10,000 in added money, will be decided, and on Saturday, another fixture, the Arlington handicap, $20,000 added, will offer C. V. Whitney's Equipoise another opportunity for more glory and profit.

The lassie is expected to have a gross value of more than $30,000 and may settle up the championship of the division.

CANZONERI BILLED TO BATTLE JADICK

By The Associated Press

NEW YORK, July 18—While Tony Canzoneri is seekng the junior welterweight championship at Philadelphia tonight two of the foremost challengers for his lightweight title, Kid Chocolate and Jack (Kid) Berg, will be tangling over the 15-round route in Madison Square Garden bowl.

Canzoneri's foe in a ten rounder in Philadelphia will be the hometown speedster, Johnny Jadick, who won the 140-pound title from Tony a few weeks ago. Canzoneri's championship will not be at stake.

Chocolate rules a slight favorite over Berg.

MILLERS' NINE-GAME WIN STREAK HALTED BY INDIANS, 22-20

Columbus Returns to Old Form by Taking Two from Kaws.

By The Associated Press

CHICAGO, July 18—Minneapolis' runaway winning streak has been broken.

The halting was done yesterday by Indianapolis. The Indians won the contest, 22 to 20, leaving the Millers with a winning string of nine straight, upon which to look back. The victory also cut Minneapolis's American Association leading margin to a mere five games. The battle lasted so long that a scheduled second game was broken up by the 6 o'clock closing law, with the Indians leading by 5 to 1, in the third inning.

Some extremely stout hitting by Milwaukee and Ted Gullic in particular, gave the Brewers a 20 to 5 decision over Toledo in the first game, after which they took the second, 8 to 6. Gullic rammed out two home runs and four singles in the first game.

A couple of fancy pitching jobs gave Columbus two victories over Kansas City. Fred Blake held the Blues to five hits to win, 4 to 0, and Phil Weinert, making his first appearance in a Red Bird uniform, gave only four safeties in the second game and won 4 to 1.

Rus Van Atta won his thirteenth victory of the season as St. Paul won the opener from Louisville, 6 to 4, and Bubber Jonnard was credited with his twelfth when the Colonels took the second game, 11 to 5.

SPONGE THROWN IN BY EASTERN LOOP

By The Associated Press

NEW YORK, July 18—One more baseball circuit has been wiped off the fast-dwindling minor league list.

The Eastern league, a class A outfit organized 16 years ago, threw up the sponge yesterday after the New York Giants and Brooklyn Dodgers had elected to surrender the Bridgeport and Hartford franchises respectively.

When the two parent major league clubs withdrew their support, directors of the league quickly decided they could not continue and wound up the season with yesterday's games.

COLUMBUS COMBINE CAPTURES SOFTBALL TOURNEY SUNDAY

Colored Nine Plays Good Ball To Beat Newark, Delaware, Marion.

BY BOB KIRKPATRICK
Sports Editor, The Star.

The White & Sons Morticians, colored softball team of Columbus, turned up another of those iron armed flingers yesterday afternoon and walked off with two victories to capture the cup presented weekly to the winner of a three-game, four-team diamond tourney at Lincoln park. Kinzer, little right-hander with speed to burn, twirled both games for the Capital city combine, winning the first from the Markert & Lewis Haberdashers of Marion, 3-0 and the second from the Pharis Tire & Rubber company of Newark, 4-3. The third game of the afternoon between the Pharis tires and Delaware Elks went to the rubber company nine by a 9-5 count.

The Markert & Lewis combine put up a tough scrap before bowing to the tourney winners in the first game. Don Lindsey and Kinzer put on a merry hurling duel that lasted for five and one-half frames. Then Lawson, White's catcher, came to bat with two aboard and broke up the game with a wallop that went for four bases and accounted for three tallies. Lindsey was touched for seven hits while Kinzer gave up only two.

Newark and Delaware presented a little seven inning softball sketch that might well have been labelled the "Comedy of Errors" in the second game of the afternoon. Both teams committed enough misplays for a whole season, nine being chalked up against Delaware and six against Newark. Both teams collected seven hits but errors provided more runs than did the hits.

The Newark and Columbus nines waged a bitter battle in the final game before the latter finally squeezed in the what proved to be the winning run in the eighth inning. Kinzer and Haag did some of the best pitching seen at the North side park in some time. Haag gave up eight hits and Kinzer allowed one less. Both pitchers received good support.

Records Fall as America Chooses Olympic Team

By The Associated Press

PALO ALTO, Calif., July 18—The main battle now looms ahead for the American Olympic track and field team, emerging today with a few earaches and sore muscles after the record-smasking final tryouts and the intersectional sharpshooting along the sidelines.

Despite the utter abandon with which Uncle Sam's best athletes performed, cracking four world records, equalling two others and surpassing the best Olympic records in 10 out of 18 final events Head Coach Lawson Robertson and his assistants expressed the belief they will be hard-pressed in the international competition at Los Angeles.

Standouts among the 68 athletes who have gained places on the track and field squad include:

1. Ralph Metcalfe, Marquette university Negro sprinter, who led home his Olympic mates, Eddie Tolan and George Simpson, at both 100 and 200 meters, as the coast favorites. Bob Kiesel, Frank Wykoff and Hec Dyer, were eliminated and relegated to the 400.

2. Bill Carr of Pennsylvania and Ben Eastham of Stanford, arch rivals at 400 meters, both world which he won in the American record time of 3:52:7, surpassing the Olympic mark, in a race that saw the elimination of Gene Venzke, world indoor mile record-holder.

4. Jack Keller, George Saling and Percy Beard, a trio of record-cracking high hurdlers, who finished in that order in the final as Keller tied the world mark of 14:4 seconds for the 110 meters.

5. Bill Graber of Southern California, with an amazing world record vault of 14 feet, 4⅞ inches, made as he broke a deadlock with Bill Miller of Stanford at 14 feet, 1⅝ inches, which also tops the best previous record.

6. Leo Sexton, whose 52 feet 8 inches in the shotput, and John Anderson, whose 165.54 feet with the discus, surpassed the listed world records.

There are at least a half dozen other possible Olympic winners in the American ranks.

Most observers feel the team would be better balanced if Ben Eastman had been shifted to the 800 to support Eddie Genung, slim Washington A. C. champion. Charles Hornbostell of Indiana and the Michigan collegian, Edwin

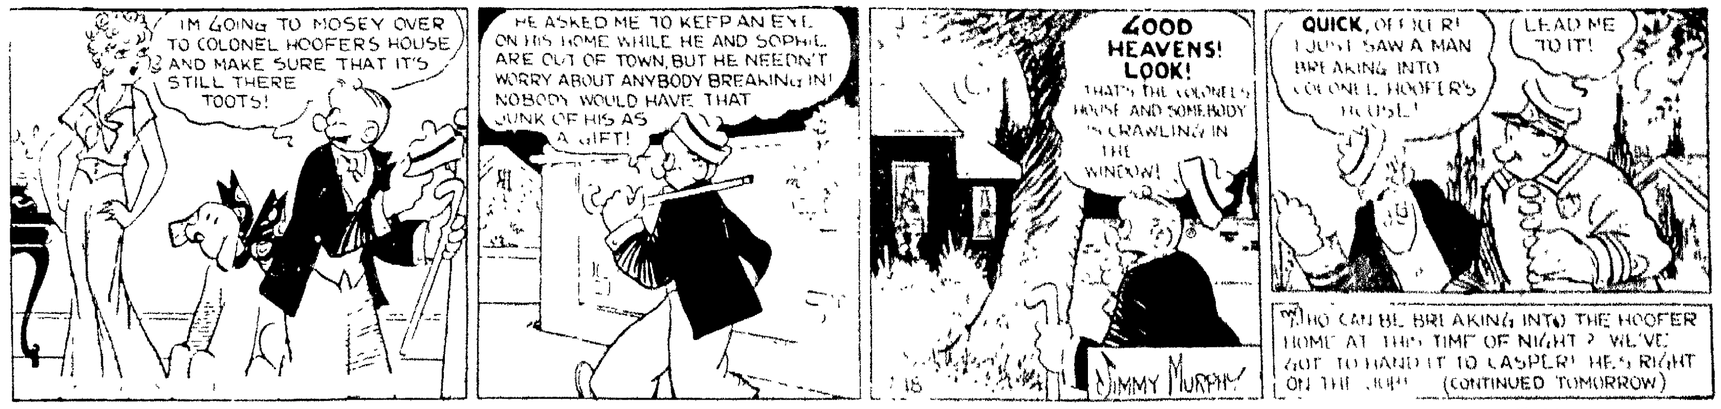
TOOTS AND CASPER — BY JIMMY MURPHY



I'M GOING TO MOSEY OVER TO COLONEL HOOFER'S HOUSE AND MAKE SURE THAT IT'S STILL THERE TOOTS!
HE ASKED ME TO KEEP AN EYE ON HIS HOME WHILE HE AND SOPHIE ARE OUT OF TOWN, BUT HE NEEDN'T WORRY ABOUT ANYBODY BREAKING IN! NOBODY WOULD HAVE THAT JUNK OF HIS AS A GIFT!
GOOD HEAVENS! LOOK! THAT'S THE COLONEL'S HOUSE AND SOMEBODY IS CRAWLING IN THE WINDOW!
QUICK, OFFICER! I JUST SAW A MAN BREAKING INTO COLONEL HOOFER'S HOUSE!
LEAD ME TO IT!
WHO CAN BE BREAKING INTO THE HOOFER HOME AT THIS TIME OF NIGHT ? WE'VE GOT TO HAND IT TO CASPER! HE'S RIGHT ON THE JOB! (CONTINUED TOMORROW)
JIMMY MURPHY

STOCK SHARES TURN LOWER

Profit Taking Follows Close of Congress, but Declines Are Minor.

By The Associated Press

NEW YORK, July 18—The adjournment of congress, for which Wall street had long awaited with a lack of patience, brought profit taking sales than fresh buying into the stock market today.

The brightest aspect of the session turned downward, after a buoyancy in the morning, especially those issues which had shown fair advances last week. The market, however, was in extremely light volume.

Among issues losing a point or more were American Tobacco B, Liggett & Myers B, Consolidated Gas, Public Service of N. J., Columbia Case, Brooklyn Manhattan Transit, Santa Fe, and New York Telephone. Gotham Silk lost three points. The steel shares held up fairly well. Westinghouse electric lost only a fraction, despite its poor second quarter earnings report. Union Pacific was firm for a time and McIntyre porcupine touched a new peak for 1932. Dome Mines and Homestake Mining moved about 5 points. But the latter lost much of its gain. Wheat traders were disappointed at the market's failure to respond to enthusiasm to the ending of political uncertainty, but brokers pointed out that the actual event had been well discounted by the recovery of last week, and that the readjustment out of the way, there was little in the immediate outlook to inspire fresh buying, with industry still in the grip of summer stagnation, and a flood of second quarter earnings statements about to make their appearance.

The second quarter report of Westinghouse Electric & Manufacturing appeared over the week-end and as a sample of second quarter earnings that may be expected from a number of important industrials, it was scarcely encouraging. The company's net loss for the period was $1,881,979 or somewhat larger than the loss of $1,320,148 of the first quarter. Nevertheless, the balance showed that this company had been able to maintain a strong financial position, in common with many of the leading corporations, despite diminished business. Next week will bring the quarterly meetings and earnings statements of U. S. Steel and Bethlehem.

WHEAT PRICES HIT NEW LOW

Values Decline at Chicago Despite Relative Liverpool Firmness.

By The Associated Press

CHICAGO, July 18—Despite relative firmness of Liverpool quotations, September and December wheat contracts here soon sank today to fresh low price records for the season. Hedging pressure associated with the movement of the new domestic crop found speculative buyers scarce, and the market quickly gave way from lack of support. Opening at ¼ decline to ¼ advance, wheat later receded all around. Corn started unchanged to ¼ higher and afterward sagged.

Reluctance to purchase wheat was in the face of prices that hovered at times within ¼ cent a bushel of the bottom most point ever reached in Chicago. Leading trade authorities said prices were so low that on this fact alone it would be folly to avocate the selling side, but also asserted that there was not much incentive for buying interests even at such levels. It was pointed out that the crop prospect for spring wheat continued generally excellent, with possibilities of black rust damage becoming more and more remote. However, some attention was given to complaints of drouth effects in southern Saskatchewan.

Liverpool reported that strength of wheat values there was influenced by further import demand from Russia for breadstuffs. There were also advices that harvesting in France was interfered with by rain. A falling off of 4,192,000 bushels in the amount of wheat on ocean passage as compared with a week ago was likewise noted. Corn and oats were bearishly affected by some selling on the part of recent buyers of corn.

Provisions were neglected.

Blind Astronomer Quits Post as Director of Observatory

By International News Service

CHICAGO — Having contributed his share to the world's stock of knowledge, Dr. Edwin Brant Frost famous blind astronomer, recently resigned as director of the University of Chicago's conservatory at Williams Bay, Wis.

Dr. Frost will continue to live in his home on the observatory grounds and will work on his autobiography, due to be published this fall. He was succeeded as director by Dr. Otto Struve.

Shortly before giving up the post he held since 1905, Dr. Frost pointed out the inexhaustible possibilities for research in science and in astronomy in particular.

"Not long ago," he said, "an amateur observed a red star that had no business to be where it was. Timidly he forwarded his observations to an astronomical society. The discovery was electrical to astronomers, a new nova, a star which flares up and fades away to its former magnitude."

Dr. Frost gradually went blind after completing a 15-year program of observing the heavens. His task was to map, classify and determine the velocities of the stars in the Orion constellation.

In the 11 years that he has been deprived of his sight, Dr. Frost's reputation has spread rather than diminished.

The "blind star gazer," 66 years old, is a member of an old Vermont family. He began teaching astronomy at Dartmouth soon after his graduation there in 1886. Subsequently he studied at Princeton and in Germany.

In 1898 he came to the University of Chicago from Dartmouth, where he had been director of the college observatory. He studied at the university's observatory under Director George E. Hale, becoming director in 1905.

THIRD YOUNGSTOWN BANK IS REOPENED

By The Associated Press

YOUNGSTOWN, O., July 18—Youngstown had $2,500,000 more in ready cash today as the City Trust & Savings bank reopened, completing the task of reorganizing three banks which closed here last Oct. 15.

The money was available to depositors, who may obtain 10 per cent of their accounts, and to the city, county and school board, which had funds in the bank.

Only a small crowd was waiting when the doors opened, and there was no apparent rush for the available funds.

FIRE DESTROYS BARN ON P. J. ZEIG FARM

Wife of Tenant Discovers Blaze at 2 A. M.; Origin Is Not Known.

Special to The Star

GREEN CAMP, O., July 18 — A large barn on the P. J. Zeig farm two miles west of here was destroyed by fire this morning. Origin of the blaze is not known.

Seven tons of hay, 250 bushels of oats, 40 bushels of wheat, and small farm machinery also were destroyed.

The fire was discovered at 2 a. m. by Mrs. Cass Harper, wife of the tenant on the farm. The local fire department was called but the blaze had gained too much headway to be extinguished.

Members of the Harper family were unable to estimate the loss. Insurance will partly cover the damage.

WAR VET PREFERS JAIL TO ALIMONY

Gets Two-Month Sentence for Failure To Pay Wife $100 a Month.

By International News Service

MACON, Ga.—Jail rather than alimony, any day, says Bill Janes, hero of the World war.

Janes, decorated for valor in action in France and in Haiti with the Marine corps, went to jail for two months for failure to pay $100 monthly alimony to his estranged wife, who is suing for divorce.

"I'd rather rot in jail than pay alimony," Janes told Judge Louis L. Brown, of Bibb superior court, when ordered to pay the alimony and attorney's fees.

The judge promptly placed Bill in jail.

Janes immediately became the hero of the jail. He was "Alimony Bill" to prisoners and guards alike. He was made a trusty by Captain T. J. McGannon.

Bill vowed the jail would become his permanent residence before he would pay a nickel alimony, and he won his point. Judge Brown released him from jail after two months and ordered Mrs. Janes to show cause why the alimony writ should not be vacated.

Janes' attorneys charged Mrs. Janes' conduct since her husband's jail commitment was an "offense against decency."

Janes was formerly commander of the Griffin, Ga., post of the American Legion.

AMERICAN WOMAN IS "BEST DRESSER"

Gives Formula by Which She Won Distinction.

By International News Service

LONDON—The best-dressed woman in Paris—that is the reputation which Mrs. E. Campion Acheson, Jr., now in London, daughter-in-law of the Bishop of Connecticut who was recently presented at court, has gained among a fashionable circle of Americans.

Mrs. Acheson spends most of her time in Paris, where she lives with her husband.

At the royal court this young and pretty American was lamenting the fact that she had to wear stockings, for she never wears any in the evening.

She was presented at court in a gown which was a symphony of white and water-green, and had the novel feature of shoulder straps and tassels executed in plaited colored wools. She carried an enormous pale-green fan.

"The best-dressed woman in Paris" explained her personal formula for costume and color harmonies.

"The plainer the better for day wear," she said. "I love yellow—which is foolish for a blonde—and I don't like rouge. But I do like a brilliant lip stick.

"I believe every woman should wear her hair off her ears; if she is plain it is good for her, and if she has handsome features, it accentuates them."

JUDGE WANTS TUB, MAN GOES TO JAIL

By International News Service

SEATTLE, Wash.—Judge Adam Beeler, who resigned from the Washington supreme court, to run for United States senator, wants his bathtub.

Edward Edwards, house wrecker, was sentenced to three months in jail because Judge Beeler's tub was missing.

The tub disappeared after Edwards sold to Robert H. Baird, another house wrecker, for $5, a partly wrecked house here belonging to Judge Beeler. Edwards said he had a right to sell the house Judge Beeler arose and said dramatically:

"Where is my bathtub?"

Deputy Prosecutor Ben Madison assured the former justice every effort would be made to recover the tub. Police Judge John B. Gordon passed sentence on Edwards.

HECTIC 72ND SESSION OF CONGRESS BROUGHT TO CLO

HOOVER TO OK RELIEF BILL

$2,122,000,000 Measure To Become Law with Signature of President.

HOME LOAN BILL PASSES

House Agrees to Glass Amendment After Garner Quits Capital.

By The Associated Press

WASHINGTON, July 18 — The precedent-destroying first session of the seventy-second congress is over—and President Hoover tomorrow will sign the $2,122,000,000 relief bill, writing "finis" if not "well done" to one of the legislators' biggest jobs.

Thus will become law another of the pieces of legislation that defied tradition and stretched this last meeting of congress into its eighth hectic month before adjournment at 11:25 Saturday night.

Like most of the congressmen, Mr. Hoover took advantage of the let-up in business to leave town. He went to his Rapidan camp. Later a statement was issued in his name saying that "although there are some secondary features of the measure to which I have objection," the Chief Executive will sign the relief bill tomorrow."

This measure in itself would entitle the just-adjourned congress to emphasis in the history books. But unusual as are its provisions, it is matched in newness by many other things that kept Washington in a flurry from Dec. 7, 1931, until July 16, 1932.

Closing Hectic

The closing hours of Saturday's session were anything but calm. They saw:

The senate make its first business for the December session a resolution sponsored by Senator Glass, Democrat of Virginia, to replace the Eighteenth amendment with another barring the saloon and giving liquor control to the states.

Scores of veterans milling about the capitol and heading for the White House in a demand for the bonus.

A final house vote making adjournment possible by passing the administration's home loan bank bill carrying a currency expansion rider upon which the senate insisted.

Senator Couzens, Republican of Michigan, saying on the floor that he hoped the Republican leader, Watson of Indiana, would be defeated in the fall elections.

Many minor pieces of legislation go to the White House for approval.

The closing session which lasted thirteen and a half hours was packed with interest. It started with the senate sending the relief bill to the White House and then saw the two branches vote and vote and vote in an effort to finish the work on the home loan bill.

Garner Goes Home

The house rejected twice the Glass amendment to permit a currency expansion of nearly $1,000,000,000. After Speaker Garner caught a train for home in Texas, his branch finally receded. Between votes on currency expansion, the two houses occupied their time in jolly and sometimes bitterly sarcastic debate, and passed many measures of lesser importance.

The senate spent several hours considering the Glass resolution, voting 37 to 21 to take it up. This was only two votes short of the two-thirds necessary for approval of a constitutional amendment. Many senators were absent.

This resolution would require ratification by state conventions. One of the leading anti-prohibitionists, Senator Bingham, Republican of Connecticut, insisted it would not carry out the platform pledge of either party. Senator Norris, Republican of Nebraska, tried to have it referred to a committee, but was unsuccessful.

Record of Session

When all these things had been done, an adjournment resolution was adopted in both branches and the weary lawmakers went home. They left behind them records that showed these things approved since December:

The $270,000,000 Hoover debt moratorium.

The two acts setting up a $3,800,000,000 Reconstruction Finance corporation.

The Glass-Steagall bill to liberalize banking laws and create additional credit.

The $1,118,500,000 tax law.

An "economy" bill to save around $150,000,000.

The Norris bill to minimize the use of the injunctions in labor disputes.

The addition of $125,000,000 to farm loan bank capital.

Submission to states of a constitutional amendment to abolish "lame duck" sessions.

They left on the President's veto record:

The Democratic tariff bill.

The first Garner-Wagner relief bill.

They saw approved by one house but not the other:

Philippine independence.

The Goldsborough bill directing the treasury and federal reserve board to stabilize the dollar.

A proposal to cash the bonus.
